

DNV-RP-C201

Ship plate buckling explorer

Plate capacity vs geometry and combined in-plane loading, with the Johnson-Ostenfeld inelastic correction.

WHAT YOU GET

- Plate capacity swept over geometry and combined loading
- Johnson-Ostenfeld inelastic correction applied

Ask Deckhand: “Check ship plate buckling per DNV-RP-C201 for an 800x2400x14 mm panel under in-plane compression.” — send to [@the_deckhand_bot](#) to run it live.
