28

phenomena in guide

7/7

CI-verified diagnoses

WHAT YOU GET

- Example-card library: synthetic-verified, measured field wells, digitized archive
- ML classification with confidence and top-3 differential
- Two-tier load / span / card-area alarm recipes computed per well
- Every published diagnosis re-verified against the live classifier in CI

Ask Deckhand: “Diagnose this rod-pump dynamometer card - failure mode, confidence and what to do about it.”
— send to @the_deckhand_bot to run it live.
