

WAMIT · AQWA · OrcaWave · OCIMF · Wang (1975)

Hydrodynamics & diffraction

Panel-method diffraction / radiation RAOs cross-checked between solvers, a 3-way unit-box benchmark, environmental load coefficients and a closed-form passing-ship interaction.

diffraction solvers

6-DOF

RAO overlay

WHAT YOU GET

- Cross-solver 6-DOF RAO overlay between two diffraction solvers on one vessel
- WAMIT / AQWA / OrcaWave unit-box added-mass, damping and RAO benchmark
- OCIMF wind & current coefficients and a Wang (1975) passing-ship interaction check
