

API 579-1 • Modified B31G • API RP 1111

Riser-joint flaw-acceptance explorer

Level-1 acceptable flaw length-vs-depth envelopes for a drilling-riser joint with campaign-end growth allowance, collapse-limited water depth and string-zone placement — demonstrated on real anonymized inspection data.

WHAT YOU GET

- Acceptance envelopes split base-metal / weld and campaign start / end
- Collapse-qualified water depth from the measured minimum wall (API RP 1111)
- String-zone placement verdict on the real 26-joint inspected fleet

Ask Deckhand: “Run the drilling-riser joint FFS screen: Level-1 flaw-acceptance envelope, collapse-limited water depth and string-zone placement for a corroded joint.” — send to @the_deckhand_bot to run it live.
