

semi-sub · spar · TLP · barge · IEA 15 MW

Floating-wind sizing & concept screening

Parametric floater archetypes swept across site load cases and screened on stability, motion, modal separation and mooring offset — the closed-form first tier ahead of the licensed OrcaWave/OrcaFlex pass.

4

floater archetypes

WHAT YOU GET

- Stability / motion / modal / mooring screen per design variant
- IEA 15 MW-class lumped turbine topside carried explicitly
- Licence-free closed-form tier; shortlist goes to OrcaWave/OrcaFlex

Ask Deckhand: “Screen floating-wind floater variants (semi-sub / spar / TLP / barge) for my site load cases.” — send to @the_deckhand_bot to run it live.
